

Galactik IT Solutions

Helping Businesses With Tech

Business Profile

We combine creativity and technology to help businesses thrive in the age of digital transformation.

THE Who What Why

Helping businesses with tech

“

Established in 2015, Galactik IT Solutions is a professional IT service provider offering a range of digital solutions, including web hosting, domain registration, digital security solutions, and e-commerce support. We focus on reliable, high-quality technology solutions tailored to both small businesses and larger organisations, ensuring secure, efficient, and scalable IT services that help clients thrive in a digital world. Whether through web development, SSL certificate provisioning, or custom IT solutions, Galactik IT Solutions aims to support businesses with comprehensive tech resources to meet evolving needs.

”

OUR SERVICES

Website Design

Websites should generate measurable leads, sales, and deeper involvement. Websites should be more than just eye-catching brochures. A company's website should act as a growth engine, generating leads and nurturing sales prospects. Get a website that is simple to edit, promotes conversions, and tells your narrative.

Brand Identity Design

It is common knowledge that people remember visuals more readily than plain text. It is critical to produce graphics that graphically convey a brand's concept/story and strategy and help it stand out after defining its concept and strategy. Through brand identity elements, we offer designs that make a forceful statement in an impressive and professional style.

Custom software Development

We create extraordinary experiences for Windows, Android and iOS. Our apps have an excellent user interface, are built for maximum impact, and increase demand for your company. Keep ahead of the pack. Get a business app today.

Ecommerce

We create Ecommerce stores that offer your customers a one-of-a-kind and pleasurable shopping experience. We understand the importance of appealing design as well as a user-friendly and effective website.

A dark, blue-tinted background image showing a group of people in an office setting, working on laptops and looking at documents. The image is used as a background for the bottom section of the page.

Helping businesses with tech

Domains & Web Hosting Services

Private domain names, websites, and email services are all available from us. We provide all of the most recent domain names at reasonable pricing. We will assist you with naming and hosting your project. www.galactikhosting.com

Search Engine Optimisation(SEO)

Great SEO is a long-term, continuing approach that might take time to provide results, particularly in competitive sectors.. Galactik IT SEO services will assist you in ranking your site as high as possible.

Web Maintenance

Keeping a website up to date is critical to ensure it is performing optimally and engaging and keeping site visitors. The technique of checking your website's general health and performance is known as website maintenance.

SECTIGO SSL Certificates

Digital certificates are online credentials that validate the certificate owner(s) and encrypt communications/data/software using public key infrastructure (PKI) and digital encryption keys. Digital certificates, in a nutshell, safeguard websites, documents, emails, servers, and other assets from cybercriminals. (<https://>). Galactik IT is a Certified SECTIGO Partner.
